

2016 IEEE/WIC/ACM International Conference on
WEB INTELLIGENCE (WI'16)

October 13—16, 2016 in Omaha, Nebraska, USA

wibih.unomaha.edu/wi

CONNECTING NETWORK AND BRAIN WITH BIG DATA

Welcome to Omaha, Nebraska! Home to the College World Series, the internationally ranked Henry Doorly Zoo, a bustling startup community, one of the strongest concentrations of Fortune 500 companies in the nation, and a thriving educational landscape with the University of Nebraska at Omaha and the Nebraska Medical Center. In 2016, the UNO College of Information Science and Technology will be the proud host to WI'16. This series provides a premier forum that will bring together researchers and practitioners, high-quality, original research papers and real-world applications in all theoretical and technology areas.

Under our theme *Connecting Network and Brain with Big Data*, WI'16 will provide a broad forum that academia, professionals and industry people can use to exchange their ideas, findings and strategies in utilizing the power of human brains and man-made networks to create a better world.

INTERNATIONAL CONFERENCE ON WEB INTELLIGENCE 2016

Web Intelligence aims to achieve a multi-disciplinary balance between research advances in theories and methods usually associated with collective intelligence, data science, human-centric computing, knowledge management, and network science. It is committed to addressing research that both deepen the understanding of computational, logical, cognitive, physical, and social foundations of the future Web, and enable the development and application of technologies based on Web intelligence. WI'16 provides a premier forum and features high-quality, original research papers and real-world applications in all theoretical and technology areas that make up the field of WI. WI'16 welcomes both research and application papers submissions.

All submitted papers will be reviewed on the basis of technical quality, relevance, significance and clarity. Accepted full papers will be included in the proceedings published by IEEE Computer Society Press.

WI'16 in Omaha is officially sponsored by IEEE Computer Society Technical Committee on Intelligent Informatics (TCII), Web Intelligence Consortium (WIC), ACM-SIGAI, and University of Nebraska at Omaha.

TOPICS AND AREAS

Track 1: Collective Intelligence

Track 2: Data Science

Track 3: Human-Centric Computing

Track 4: Knowledge Management

Track 5: Network Science

Please find the full list of topics and areas of interest of WI'16 at <http://wibih.unomaha.edu/wi/topics>

IMPORTANT DATES

March 20, 2016: Submission deadline for workshop/special session proposals

April 1, 2016: Submission deadline for full papers

April 3, 2016: Notification of workshop/special session acceptance

June 1, 2016: Submission deadline for workshop/special session papers

June 10, 2016: Notification of full paper acceptance

June 25, 2016: Notification of workshop/special session paper acceptance

July 10, 2016: Submission deadline for tutorial proposals

July 31, 2016: Notification of tutorial acceptance

October 13, 2016: Tutorials, workshops and special sessions

October 14-16, 2016: Main conference
